

SAC

STANDARD ACCESS COVER

SAC Overview

Surespan SAC flush access covers have been designed for a wide range of applications and industries; water treatment, loading bays, plant access and emergency exits.

Surespan SAC covers offer the ultimate in design; they sit flush with the floor, with gas spring assisted aluminium tread plate lid, which locks in the open position with a safety hold open stay to prevent against accidental closure.

STANDARD FEATURES

- Custom made to any size
- Rated up to FACTA Class E Vehicle loading
- Tread plate lid
- Incorporated double unbroken seals
- Gas spring assisted operation
- Standard Tee Key Lock
- Hold open stay - against accidental closure

Material:

Cover and frame aluminium or stainless steel.
Note: we are unable to offer Stainless Steel tread plate.

Cover:

Single, double or multi-leaf. 5 bar tread plate reinforced up to FACTA Class E loading.

Frame:

Patent frame. The access cover is not watertight but is self-draining. Any water passing the seals will be dispersed via an integral drainage channel, which is fitted with an optional internal or external 3/4 inch flexible hose adaptor (For connection to drain by others).

Hinges:

Unique foldaway hinges incorporate double unbroken seals to help prevent the ingress of dirt and moisture.

Locking:

A stainless steel slam action Cablock is fitted as standard to lock the lids. The locks are easily opened from the inside and Tee Key operated from the outside.

Operation:

Gas spring assisted lift. The lid automatically locks into the open position with a safety hold open stay to prevent against accidental closure.

Finish:

The covers are self colour as standard with polyester powder coating to any standard RAL colour as an additional item.

Options:

Retractable safety grid
Electric/Hydraulic/Pneumatic
Stainless Steel Grade 304/316

SureGrip Non-slip
Powder Coated
Fire Rating (1hr, 2hr, or 3hr)
